LEADERSHIP MESSAGE

Being a member of the Weber Human Services community is about caring and compassion. The people who work at the agency and the board members care about the clients. Everyone from the customer care representatives and case workers, therapists and volunteers, administrators, office staff, and board members are all here to help clients not only survive, but to thrive in the communities where they live and work. 2025 has been a year of transitions, transformations, and new beginnings within the Foundation.

The Foundation welcomed a new board member in 2025 and we are happy to have Cindy Beecher from First Community Bank in Morgan join our team. We are grateful for Cindy's willingness to serve and her dedication to the mission of the Foundation. In two years working at First Community Bank, she has seen the city of Morgan grow, and is excited to share the mission of the Foundation within that community. She has worked in the banking and financial service industry for over 30 years. Cindy was born and raised in Utah and has lived in Davis County for 30 years.

The golf tournament was a success once again as we hosted a sold-out crowd up at Wolf Creek for a fun day of golf. The community support of this event is vital to the success of the Foundation and provides funding for the various programs that help clients with services and needed items that Medicaid and Medicare do not cover. The golf tournament also allows the Foundation to participate in the many community events hosted by other nonprofits who also provide services to clients we serve. The Foundation was proud to welcome hole sponsor representation on 17 out of 18 available holes this year. We are humbled by the outpouring of support for this fundraiser and we hope to welcome even more companies in 2026.

The Foundation launched the Leadership Circle and celebrated its inaugural member – D.L. Evans Bank. Their generous donation is helping the Foundation invest in and plan for the future. We are grateful for their vision of helping people in the community with an investment in the programs and services we provide. The Leadership Circle was created this year for donations received at the \$10,000 level or above. These leadership gifts are being utilized to ensure the long-term success and sustainability of the nonprofit.

This year, the Employee Giving Campaign raised almost \$38,000. The employees showed up in support of the Foundation through this annual campaign. The names of those who made donations are listed in this report. The Foundation board is beyond grateful for their support and the trust they place in board members to utilize these funds in the most impactful way. It is thanks in large part to this funding that many of the programs have money to support their work with the clients.

The people and programs have flourished in the past year, and you can read about the community impact that the Foundation is having in Weber and Morgan counties on page 10 of this report. Whether it is assisting with mental health treatment scholarships, providing meals to homebound seniors, or providing care items for the clients in the residential programs, the Foundation continues to work toward a brighter tomorrow for all the clients at the agency.

As we look to the future, we are blessed and extremely thankful for the community that allows us to continue providing for clients in need as they work on a better life for themselves and their loved ones. Thank you for continued support of these efforts.

With gratitude,

Kevin Eastman, CEO
Weber Human Services

Diana Windley, Senior Vice President
of Marketing & Communications
Goldenwest Credit Union, Foundation President

DONOR SPOTLIGHT

Weber Human Services Foundation is proud to welcome D.L. Evans Bank as the inaugural member of the Leadership Circle. The Foundation was the recipient this year of a grant in the amount of \$31,250. The gift demonstrates a commitment to the long-term success and sustainability of the Foundation and the programs at the agency.

Founded in 1904 in Albion, Idaho, by David Lloyd Evans, D.L. Evans Bank began as a small business with capital of just \$25,000. From the start, the Bank embraced an entrepreneurial spirit combining energy, vision, and a deep commitment to community. Through challenges like the Great Depression, when many banks closed, D.L. Evans Bank endured. Over the years, D.L. Evans Bank has expanded with additional branches throughout Idaho, and in 2018 opened its first Utah branch in Tremonton.

Today, their dedicated team serves customers across seven Utah locations, including South Ogden. Guided by their community banking roots, they continue to help families and individuals grow and prosper, staying true to one of their key founding values: Commitment to Community.

D.L. Evans Bank is passionate about the work being done at the Foundation and enthusiastic about the Foundation’s involvement in the community with fundraising. They said, “For over 120 years, D.L. Evans Bank has proudly served our communities with a foundation rooted in integrity, compassion, and hard work. While times have changed, the bank has never lost sight of the founder’s vision — that banking is about one thing: helping people. This is the strength of a family-owned community bank - meaningful, long-term relationships.”

Foundation Director, Summer Williams said, “I was honored to attend a check presentation at the Ogden branch for D.L. Evans Bank, where their administrators learned more about the work being done at Weber Human Services. We talked about the agency and how much I believe in the need to help clients with their substance abuse and mental health problems, along with the benefit of the senior services and prevention programs. They agreed that these services are vital to our community and meeting an important need. D.L. Evans is instrumental in maintaining the Foundation’s ability to meet those needs and its sustainability for the future.”

“Weber Human Services recognizes that some members of the community who need help may not qualify for Medicaid coverage at the agency. Where do these people turn for treatment where it is an affordable option? The Foundation provides partial coverage for these community members to be seen at Family Counseling Services of Northern Utah. The Foundation further supports the work being done at this agency with sponsorships for Family Counseling Services’ fundraising events and welcomes them to the Foundation’s golf tournament to share their mission and upcoming events with the community.”
- Tara Durrant, Customer Care Supervisor

“There are limited affordable housing options available for some of our clients as rental prices continue to skyrocket. With help from the Foundation, we have been able to assist clients with rental deposits, first month’s rent, and providing some housing supplies to help unhoused families get into homes. We have also been able to keep some clients housed who may have just needed help with one month of rental assistance. Having a safe place to call home contributes to a person’s mental health and recovery journey.” – *Wendi Davis, Assistant Clinical Director*

"Supported Employment is a program that helps individuals with mental health struggles and intellectual disabilities find and maintain competitive employment. The program ensures that clients have the skills to be successful at their jobs. The support can include job training, working on social skills, and help asking for accommodations and feedback from employers. We have continued to see improvement with client self-esteem and confidence, helping them realize they are valuable members of society. Without the Foundation's support, this program would be unable to help people accomplish these goals.
- Leslie Jones, Supported Employment Lead

WHY DO YOU SERVE?

Volunteers are the life of any nonprofit organization. The Foundation board at Weber Human Services is comprised of 15 individuals who are dedicated to making the world a better place for the clients at the agency and for the local communities in Weber and Morgan counties.

"I serve because I believe in the power of community and the importance of caring for one another. Being part of the Foundation allows me to help create meaningful connections and support systems that uplift individuals and families. It's an honor to contribute to something that truly makes a difference in people's lives."
- Paul Miner, Mountain America Credit Union, Board Treasurer

"I serve to make a difference, help those in need, and provide a real chance for individuals to reach their potential. It is with this in mind that I feel blessed and want to give back to a community that I care so much about."
- Morris Smith, D.L. Evans Bank, Board Member

"I serve because I support the many programs that WHS provides in the community and how individuals and families benefit from the additional support that the Foundation provides. I'm happy to be part of it!"
- Paula Price, Community Representative, Board Member

Board members Mark Chamberlain, Lorna Carter, and Paula Price accept CRA grant funding with Summer Williams and Wendi Davis from Weber Human Services. The Wasatch Peaks Credit Union Foundation and the Federal Home Loan Bank of Des Moines donated funding to help the Mental Health and Substance Use Departments provide more treatment for clients in need.

Program Directed Gifts
